## 27 mm X 8 mm

Rolled 2mm thick wall 316 Stainless steel,

3 metre lengths

Mirror Polished £13.20

Drilled and Mirror Polished £16.42

**This premium rubbing strip, (rubrail) is drawn from solid stainless steel in the case of the first two items.**

The rolled profile is made from 2mm thick 316 stainless steel unlike most of the competitors who only use 1.5mm thick material.

**All rails are of the utmost quality. Mill finish is as it comes with no major surface imperfections. Mirror polished is, as the name suggests, almost flawless "superyacht mirror" finish.**

The maximum length of a single piece of the solid rail is 6 metres, approx. (19ft), the rolled profile is supplied maximum of 3 metres, (9ft).

**Drillings can be at any centres, we suggest between 200mm and 300mm, (8"-12"), either straight holes or countersunk.**

All prices are per metre, based on full lengths, ex works, ex VAT, and subject to change without notice.

**Cutting surcharges may apply for shorter lengths.**
